The Rolling Stones Icewine is one of the rarest wines in the world. Our Pinot Noir grapes are left to hang on the vine well into the winter months. When the temperature reaches -8°C the frozen grapes are hand-picked and pressed in the extreme cold. This remarkable process intensifies the sugar, acid and flavors in the grapes, resulting in a wine unlike any other.

As fate would have it, the land Irv purchased was the original 450 acre ranch that captivated him. ## JAMES COLE ESTATE WINERY - NAPA VALLEY, CALIFORNIA

Our philosophy can be summed up in one word: "balance." We believe that growing and making great wines starts in the vineyard, where we ensure that each vine produces fruit that's in balance; and then everything we produce is carefully crafted in our cellar. The result: Wines that are always rich with fruit flavors and solidly structured.

T-Vine adheres to the principle that when people enjoy these wines, we want them to think that they jumped into a blackberry tangle on a bright summers day- the wines should be big, juicy, balanced and brimming with fruit.
